REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. The prior art teaches subjective optometric devices comprising adjustable and lockable nose pads, such as described in patents to Parsons (US 1,545,847), Schneck (US 2,103,340) and Lee (US 2,147,448) and forehead rests, such as described in patents to Ellis et al (US 2,798,408) and Tate, Jr. (US 3,904,280). However, the prior art fails to disclose or render obvious the limitations of an Alvarez lens-based subjective optometric apparatus wherein adjustable earpiece members and nose pad or forehead rest members (or both) are switched between a locked state and an unlocked state via a single operation of a lock mechanism, i.e., one lock mechanism is enabled to lock both the earpiece members and one or both of an adjustable nose pad and forehead rest member concurrently.

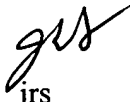

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
